

Sunrise Unified School District

2007 STAR Award

LUPE ARIAS

You have won a Platinum 2 star award

District-wide Awards

	Platinum	Gold	Silver
4 stars	13	21	76
3 stars	26	57	220
2 stars	71	210	391
1 star	200	437	527

Over one-half of the district's students won awards this year. In 2007, 310 students in the district earned Platinum awards, 726 students earned a Gold Award, and 1214 students earned a Silver Award. Best of luck to you in the coming year!

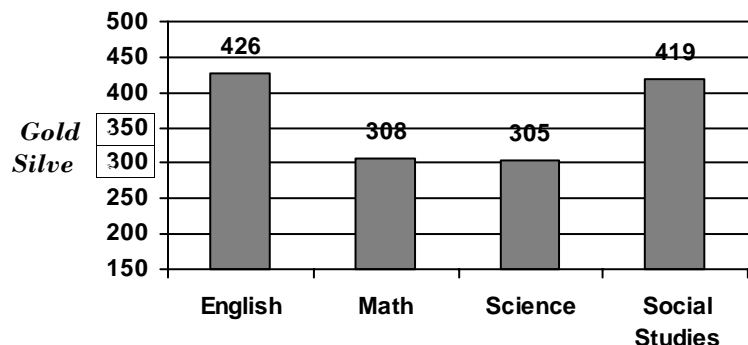

Your 2007 STAR Performance

English	Advanced Proficient
Math	Basic
Science	Basic
Social Studies	Advanced Proficient

Your STAR scores reflect how you are performing relative to the state standards. We would like all students to perform at "Proficient" or higher. If you perform below Proficient, it is a sign that you may need additional preparation to pass the California High School Exit Exam and to succeed in college.

Go for the Gold in 2008

With a score of 350, you will be proficient on the 2008 test and you will be a Gold Award winner. With a score of 300, you will earn a Silver Award.

Award Criteria

As part of STAR testing, most students take four California Standards Tests (see your scores above). Students receive performance scores of "Advanced Proficient," "Proficient," "Basic," "Below Basic," and "Far Below Basic." Students receive a district STAR award based on their highest score on the California Standards Test.

Students whose highest score is "Advanced Proficient" receive a Platinum award, those whose highest score is "Proficient" receive a Gold award, and those whose highest score is "Basic" receive a Silver award. Students receive one star for every test on which they score at their highest level. The highest award a student can receive is a 4-star Platinum (for students who score Advanced Proficient in four subject areas). Some students, who are learning English as a second language, qualify for an Emerging Scholar award.
